OS 12002 V

The high performance scanner for particularly valuable books

*“He lives two lives
who relives his past
with pleasure.”*

Marcus Valerius Martialis (approx. 40-102)

If you need to digitize valuable books and documents, the OS 12002 V provides a future-proof solution for every requirement.

The OS 12002 V range is particularly gentle on books and preserves their value thanks to its new bookholding concept. Both pages of a book can be scanned simultaneously.

The OS 12002 V was developed working closely with experienced users. With an opening angle of 90°, the OS 12002 V meets the standard of restorers not to scan old and historically valuable books with an opening angle of 180°, 140° or 120° but with a maximum of 90°. In the process, the books can be scanned with or without a glass plate depending on the need.

Product advantages

- max. opening angle 90°
- gentle book scanning
- double-page processing
- working without glass
- ROI-scan feature (limitation of scan area)
- high productivity
- best results without additional post processing
- Perfect Book – 3D scan technology for automatic book detection and perfect book curve correction
- automatic white balance for best and constant color quality
- no UV/IR radiation
- low exposure to light (illumination will only be activated when scanning)
- no reflections with high gloss originals
- ergonomic working position
- excellent cost-performance ratio
- electronically controlled self-opening glass plate
- glass plate easy to remove

Specifications

Description: overhead tabletop scanner
for bound originals

Scan area: 600 (2 x 300) x 450 mm
(>2 x DIN A3)

Max. book thickness:

150 mm with and without glass

Book scanning: V-position 90°, adjustable
side walls, centre indicator, ergonomic
control panel, height-adjustable, adjustable
book spine width, integrated trigger bars

Scan mode:

42 bit color / output 24 bit color,
14 bit gray / output 8 bit gray,
1 bit b&w / output 1 bit b&w

Maximum resolution: 600 ppi

Scan speed: 3,8 sec./400 ppi

Scanner interface: Gig E

Perfect Book: 3D scan technology
for perfect book curve correction and
automatic document detection

Data display: all standard formats, e.g.
TIFF uncompressed, TIFF G4, JPEG, JP2,
Multipage TIFF, PDF, Multipage PDF, BMP,
GIF, PCX, PNG

User software: Omniscan 12 / 64 bit,
with multithread function (optional)

Image processing/image enhancement

software (optional): integrated color
management, contrast improvement,
image rotation, despeckle, deskewing,
cropping, masking, b&w scanning with
dynamic threshold, etc.

Connected loads:

230 V, 50/60 Hz, 1.1 A,
other voltages on request

Dimensions: (w x d x h)

1023 x 880 x 1025 mm

Work Space: (w x d) 700 mm x 720 mm

Weight: approx. 130 kg

Accessories:

PC, monitor, scanner table with
lockable PC-box
